INSIDE REVELATIONS AS TO THE ROW

The alleged defalcation of J. W. Patton. of internecine dissensions. The amount of manner. Patton's shortage is now definitely reported to be \$1,375, exclusive of the \$500 voted to the Johnstown flood fund, which will be made good shortly by the Council. The bitter fight in progress in the order had its inception in Patton's levanting.

At the special meeting of the Grand Council last Saturday evening, the whole matter was resurrected and in the heated discussion which arose, strong language passed and blows were almost resorted to. It was a lively time, and some of the ladies present took refuge in a cloak room while the wordy war proceeded. It was brought out that on the night the Grand Council met to vote relief to Johnstown, a motion was made to make the sum \$500. This amount oversized Treasurer Patton's pile. and with admirable sang froid Patton moved to amend by making it \$100. He was voted down. The Grand Secretary drew a warrant for \$500 and sent it Treasurer W. R. Thompson, of the Relief Committee. A messenger carried the warrant to Patton, who drew a check for \$500

to parts unknown. The check went through one bank all right, and the money was paid; but the bank on which the check was drawn reported "no funds," The Grand Council thereupon resolved that the honor of the order was at stake, and the check should be made good.

Then came hot charges that officials of the order had been cognizant of Patton's peculations for some time previous to his disappearance, and that there was ample proof that the higher officials had not exacted a bond from Patton, as required by the by-laws of the order. Dead silence followed this accusation, and it was repeated with personal garnishments, coupled with the threat that all members of the Grand Council who could be proven to have been aware of Patton's conduct would be expelled from the order. Wildest confusion followed this announcement, which

was made by a prominent Southsider. The changes were run upon gag-law rulings, it being claimed that the installing official of the order had deliberately absented himself from lodges 7 and 13 in order to invalidate the right of their representatives to appear in Grand Council, and a lively rumpus was the result of this

IT SOUGHT IMPEACHMENT. All this was incidental to the real object of the special meeting, viz., the consideration of a new constitution and by-laws and the securing of a new charter which would allow the extension of the order to other States. At a special meeting two weeks since the new constitution was combated simply upon the grounds that it was too autocratic, and centralized the machinery of the order in a few hands. But the oppothe fire in the alleged existence of a "ring" in the order. The wrangle over Patton added to the ranks of the opponents of a new constitution, and it was defeated, hands down. The question of extension to

episodes of the evening, the members of Economy Council, No. 13, hastily framed a resolution impeaching the Grand President. IT WAS RULED OUT. It was offered for reference to the Griev-

nnce Committee of the order; but Mr. Buckley, who was presiding, ruled against its admission on the doubtless correct ground that the resolution did not bear the seal of the Council for obvious reasons. Amid great confusion a motion to adjourn was carried, and the fight came to a temporary

Patrick Savage Attacked a Woman

Penn Avenue Yesterday. Yesterday afternoon Mrs. Charles Hammond was walking down Penn avenue. At the corner of Eleventh street she met a gentleman friend with whom she conversed a few moments. She afterward started on down Penn avenue, but was quickly overtaken by Patrick Savage, who asked her what she had been talking to the other gentleman about. She refused to tell him. Savage drew back and struck the woman full in the mouth with his fist. She staggered back against a building. Officer Moran came up and placed Savage under arrest. The policeman says he has always been a quiet, orderly citizen, but for the past few weeks has been drinking. After he had been arrested Mrs. Hammond pro-ceeded to Magistrate McKenna's office and preferred a charge of aggravated assault against him. She begged that he be punished as lightly as possible. The lady was also very solicitous that the story be not

NEWS FROM YESTERDAY'S LABOR GRIND

In reply to the statement made by Jame Campbell, President of the Window Glass Workers Association, that the proceedings in the case of the Central Trades Council against him would likely be dropped, President Evans, of the Council, said yesterday: If Mr. Campbell thinks the case will be dropped he will find out before long that he is adly mistaken. I see he made another trip to Washington, and was in that city for two days. He gave out the impression that he was at Washington Springs or Fayette Springs of some other place; but all the same he was seen in Washington. Whether he was there con-suiting with the officials of the Treasury De-

artment or not I do not know.

In his interview, Mr. Campbell says he wi

not asked to furnish any information in regard to the case. I deny this. His attorney, Mr. not asked to furnish any information in regard to the case. I deny this. His attorney, Mr. Cotton, was asked and that is the same thing. Mr. Cotton went to District Attorney Lyon's office, and, when asked by the latter what information his side intended to give him, Mr. Campbell's attorney replied: "None whatever."
Upon one occasion I met District Attorney Lyon at Mr. Brennen's office, and again asked him if the other side was prepared to give anything to him. Mr. Lyon again told me they would not give any. The proper way to get at it is for Secretary Windom to ask Mr. Campbell for the information and he will then be compelled to give it. I have not heard anything about the department referring the papers back to Pittsburg for further information. Mr. Layton has not received any word, and I do not think Mr. Lyon has. The latter is still out of the city, and if he had any advice he would communicate with Messrs. Brennen or Layton. One thing I do not understand is the sudden interest Assistant Secretary Batchellor is taking in the case. When the papers were first presented to him he said he would not handle the case, but would allow it to lay over until Secretary Windom returned to his desk. A few days after positively refusing to take the matter up he examines the papers and has himself quoted about the recommendations. If the newspaper reports are correct, he virtually gives an opinion as to what he thinks the out come of the case will be. I do not think, however, that he will handle the case, as the Secretary windom returned to his desk. A few days after positively refusing to take the matter up he examines the papers and has himself quoted about the recommendations. It is not like the open grove in which most campmeetings are usually held, but is one of the grand, leafy, silent stretches of forest peculiar to the Allegheny Monntains. The association owns about 90 acres, having a frontage of about 1,000 feet on the south side of the Pennsylvania Railroad and nestling at the foot of Chestnut Ridge. The ground rises from the road, shedding the water from the center of the ridge to both sides. About 20 acres overlooking the track of the railroad is cleared and the remainder of the land, which lies in an oblong square, about 200 feet above the Pennsylvania Railroad, is that the H. C. Frick Coke Company had purchased the plant of the Connellsville Coke Company, and that the same firm had bought out the J. W. Moore Coke Company. About six weeks ago THE DISPATCH exclusively announced the THE DISPATCH exclusively announced the sale of the Leisenring, or Connellsville Works, to the Frick Company, and also published details of the negotiations pending between the Frick and Moore Companies. For the purpose of ascertaining if the Moore Company had really sold out, a reporter called upon a representative of the latter at his home last night. The gentleman denied that his firm had sold out, and said:

FLEMON'S RETURN. It is Not True That He is Ungrateful to the

Next Monday. John W. Flemon arrived in Pittsburg at 6:30 A. M. yesterday. He was met at the Baltimore and Ohio depot by some 200 friends and warmly welcomed. Getting into a carriage with Colonel Echols, who accompanied him, he drove at once to the residence of Rev. G. W. Clinton on Linton street, dropping Colonel Echols at the Sev-

enth Avenue Hotel. Flemon had breakfast with Mr. Clinton, and subsequently saw several friends. He declared that he would drop the name of Yeldell altogether, and assume that of Flemon henceforth. Last night a DISPATCH reporter visited Mr. Flemon at his residence on Logan street. The quondam prisoner had not thoroughly recovered from the effects of his recent traveling, though he had slept soundly until far into the afternoon. With regard to the report which has been extensively circulated about his alleged ingratitude for the kindness of the public, Mr. Flemon distinctly stated that the rumor is totally untrue. It emanated from his enemies in South Carolina, and was intended enemies in South Carolina, and was intended to injure his character. He declared himself quite satisfied with his trial. The Judge's charge was most impartial, and he received nothing but courtesy from the South Carolina officials.

A visit was also made to D. M. Washing-

ton's residence on Fulton street. Mr. Washington announced that the Flemon Washington announced that the Flemon relief meeting, advertised for next Friday, has been postponed to Monday, August 18. Mr. Flemon will appear and give the history of his life from childhood. Colonel Echola will also be present, and will speak on the subject of Southern justice to the colored race. Tickets for the meeting will be 50 cents each, and will be on sale at all newspaper offices. The Flemon committee hope by offices. The Flemon committee hope, by means of the ticket money, to defray the rest of Flemon's expenses. The meeting is to be held either in Lafayette Hall or the old City Hall. When all the debts have been paid off, a reception will be given Flemon, at which visitors can see him and converse with him. A meeting will be held to wind up the affairs of the committees, at which a vote of thanks will be given to a benefactors of Flemon.
